

# FCSA

You're in good company.

# Sometimes things aren't always **quite what they seem**

We understand that developing a compliant PSL is no small challenge. Distinguishing between organisations that pay lip-service to compliance and those that are fully committed is complex, costly and time-consuming. Getting it wrong can have serious implications on your business.

## **That's why we have done the checks for you.**

Every FCSA Accredited Member has already undergone the most stringent testing in the industry, at no cost to your agency.

Recognised as the industry's compliance gold standard for umbrella employers, contractor accountants and CIS payroll providers; agencies can reduce risk by committing to a PSL comprising exclusively of fully compliant and transparent FCSA Accredited Members.

## **FCSA Accredited Members:**

- Adhere to rigorous standards.
- Are assessed against a published Code of Compliance.
- Are independently tested by regulated accountants and solicitors.
- Have their FCSA audit disclosed to HMRC.
- Prove their compliance annually.

Take a closer look at your PSL. Check they're an
